

Task 2 Conduct a market scan

We have successfully presented our project plan and approach to our clients in SectorMetric with positive feedback received. We are now up to the project phase.

Market scans for technological solutions are usually conducted through a combination of desktop research and talking to the owner of the solution. Technological solutions are matched against “best-fit” criteria, then further matched against client capabilities.

Software	Feasibility	Comments
Oracle NetSuite ERP	Good	Cloud based, Online E commerce support, accounting.
Reach Accounting Software	Medium	Software modules for Accounting, track aspects of business.
Handdy Accounts	Medium	Easy to use and less complications.
FinancialForce	High	Cloud Based Enterprise Resource Planning. Supports accounting, billing, revenue etc.
Epicor ERP	Medium	Support for Accounting, Inventory Control and more. Has service-oriented architecture (SOA).
Microsoft Dynamics ERP	High	Supply chain management manage financial data, business planning. Provides greater visibility into performance key factors.
